

FEATURED PRODUCT

Motion Indexer II

FEATURING THE EMAX SERVO POSITION/DRIVE

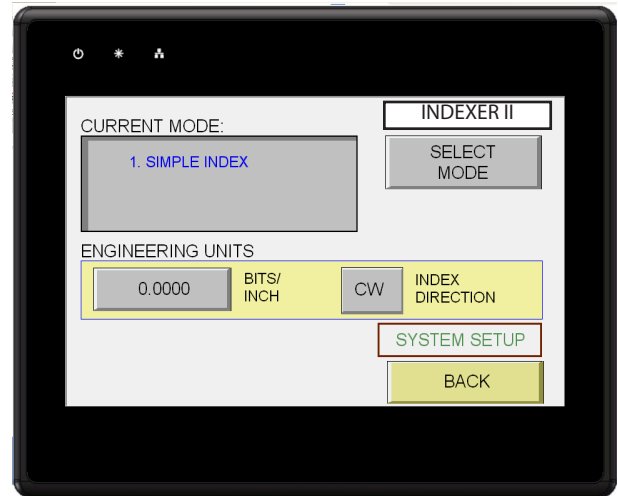

The Motion Indexer ii system provides incremental motion for table indexing systems, part assembly and heavy-duty chain conveyors used in the thermoforming industry.

As electronic systems age, production companies continue to look for drop-in replacements for their machines. Built on proven Emerald Technology, developed by IIS, the EMax Positioner/Drive System provides precise control for both new and existing machines.

The Motion Indexer II System is an ideal candidate to replace outdated and expensive to repair servo systems. Free servomotor sizing insures the correct configuration for your application.

Features:

- ❖ Nine built-in motion modes/profiles
- ❖ Simple intuitive touchscreen interfaces
- ❖ No programming required, just a simple setup
- ❖ Full range of servo systems are readily available
- ❖ System functionality is expandable through software

Typical Applications:

- ❖ Feed to length
- ❖ Feed to a Registration Mark
- ❖ Rotary table Indexing
- ❖ Actuator Positioning

Multiple Hardware Configurations:

- ❖ Rated speeds up to 5000 RPM
- ❖ Torque ranges from 0.5 to 150 Nm
- ❖ Power from 50 to 22 kW
- ❖ Input volts: 115, 220, 440 Vac
- ❖ Matched servo rated gearboxes available

Motion Indexer II System

IIS provides a full range of powerful servo indexing systems from 50 watts to 22 kW for a variety of applications.

Call us today at (585)924-9181 for your free pre-sales application support. We will assist in selecting the proper motor size and discuss your application needs.

Team IIS

Our objective is to bring state-of-the-art servo system products to practical use on the factory floor. Whether it is a complete turnkey system or servo components, IIS' commitment to quality products and personalized support is unsurpassed. Our business philosophy is pretty simple. We take responsibility for everything we sell. By doing that we make a long-term commitment to our customer's success.

Headquarters in Victor NY

To accommodate the steady growth we've enjoyed over the years, our facility has been expanded several times to its present 17,000 square foot capacity. This location houses all critical departments - Sales, Marketing, Applications Engineering, R&D, Production, Warehouse, Panel Shop, Quality Control and Customer Support. Having everything under one roof speeds communications and provides better service to our customers.
